

PestX Environmental Services Limited

ENVIRONMENTAL POLICY

1. The procedures and methods operated by PestX Limited have been designed to ensure the minimum possible impact on the environment both locally and globally.
2. PestX has invested in, and will continue to invest in, the necessary financial, technical and human resources to fulfil the company's commitment to improving the environment and preventing pollution.
3. PestX Ltd is committed to using materials, equipment, poisons and baits which pose the least risk to the environment.
4. All PestX employees are trained to care for the environment and have been made aware of the importance of meeting and improving the high standards of environmental care required by the company.
5. The PestX Quality Management System is accredited to IS EN ISO9001:2008 and the company is committed to compliance with all relevant Irish and EU legislation and regulatory provisions including those that apply to the environment.
6. The directors take full responsibility for the environmental performance of the company and place their signatures on this policy in full acknowledgement of that responsibility.
