

**1. Identification of the substance/preparation and of the company/undertaking****Identification of the product:**

**Product Trade Name:** Lynx Difrat (PCS Number 93158)  
**Product Name:** Difenacoum 0.005% Whole Wheat  
**Intended Use:** Ready for use rodenticide

**Manufacturer/supplier identification:**

**Company:** SERVEM  
Maxboley, Duncormick  
Co. Wexford, Ireland  
Tel: + 353 51 563530 – Fax: + 353 51 563531

---

**2. Composition/information on ingredients**

**Cas No:** 56073-07-5

**Component Name:** Difenacoum

**Concentration:** 0.005%

**R Phases:** R26/27/28. Very toxic by inhalation, in contact with skin and if swallowed

**Classification:** T+ ( Very Toxic ), T ( Toxic )

---

**3. Hazards identification**

Not classified as hazardous. Large quantities would need to be ingested to produce a toxic effect. Avoid all contact by mouth. Practically non-hazardous by skin contact.

---

**4. First aid measures**

**First aid – eyes:** wash off with plenty of water. Summon eye specialist

**First aid – skin:** wash off with plenty of water.

**First aid – ingestion:** make victim wash out mouth with water, avoid vomiting. Summon Doctor

**Advice to Physicians**

Difenacoum is an indirect anticoagulant. Vitamin K1 (phyomendione) is antidotal. In the case of suspected poisoning, determine prothrombin time not less than 18 hours after consumption. If elevated, administer vitamin K 140mg/day in divided doses, and continue until prothrombin times normalise. Continue determination of prothrombin time for three days after withdrawal of the antidote and resume treatment if elevation occurs in that time. For comprehensive medical advice on the treatment of poisoning, contact the nearest Poisons Information Centre or SERVEM.

---

**5. Fire-fighting measures**

**General Hazard:** This product is non-flammable, but is combustible

**Extinguishing Media:** Use water spray, foam

**Protective Equipment:** Wear self-contained breathing apparatus

---

**6. Accidental release measures**

**Spillages:** Any spillages should be cleared up immediately and disposed of safely. Wash contaminated surfaces with detergent solution.

---

**7. Handling and storage**

---

**9. Physical and chemical properties**

<b>Physical State:</b>	Whole Wheat
<b>Colour:</b>	Blue
<b>Odour:</b>	No significant odour
<b>Flammability:</b>	Not flammable
<b>Solubility in water:</b>	Insoluble
<b>Density:</b>	N.A.
<b>Explosive Properties:</b>	N.A.
<b>Oxidising Properties:</b>	N.A.

---

**10. STABILITY AND REACTIVITY**

**Stability:** Stable under normal conditions

**Hazardous Decomposition Products:** Hazardous decomposition products are not expected to be formed during normal storage.

---

**11. Toxicological information**

<b>Acute Toxicity:</b>	Oral LD (rat) 13500mg/kg
<b>Irritancy – Eyes:</b>	Not an eye irritant
<b>Irritancy – Skin:</b>	Not a skin irritant
<b>Skin Sensitisation:</b>	No known reports of skin sensitisation

---

**12. ECOLOGICAL INFORMATION**

**Ecotoxicity:** This product is hazardous to mammals including domesticated animals and birds if ingested. Exposure of non animals should be prevented.

---

**13. Disposal considerations**

**Product Disposal:** The best means of disposal of any product is through proper use according to the label. Incineration in the recommended method of disposal.

**Container Disposal:** Do not dispose of the pack in domestic refuse. Empty completely puncture or crush and dispose of safely.

---

**14. Transport information:**

This substance is not dangerous under current provisions of the code of international carriage of dangerous goods by road (ADR) and by rail(RID), of the international maritime dangerous goods code(MDG), and of the international air transport association(IATA) regulations

---

**15. Regulatory information**

**Symbol:** T+ (very toxic) and T (toxic)

**R Phases:** R26/27/28 and R48/25

**Intended use:** For use only as a rodenticide

---

**16. Other information**

For the statutory conditions relating to use please refer to the product label.
